Speaker(s):

PRIVACY POLICY:
The University Seminars are intended to foster an open and unfettered intellectual exchange among peers, allowing attendees the freedom to try out ideas without the inherent limitations of a public discussion.

Minutes are taken at all seminar meetings. These minutes may be open and available immediately among members or kept closed for five years before being included in the Seminars' Digital Archive and available to scholars through the Columbia University Rare Book and Manuscript Library.

Members of the seminar decide whether minutes are "Closed" (not posted online or emailed, etc.) **prior** to inclusion in the archive, or "Open." With an open policy, a seminar decides when and how to circulate minutes.

Minutes from this meeting are considered:
